

High Commission of India
Port Louis

Notice

The High Commission of India invites proposals from reputable Mauritius based companies to set up the following facilities at the Consular Hall of the High Commission:

- 1. Tea/Coffee/Water vending machine**
- 2. Coin-operated photocopier**

Proposals should clearly indicate the rates at which tea/coffee/water will be supplied to the consumers as well the rate applicable for photocopying.

It may be noted that the Consular Hall of the High Commission receives on an average 150 people per day.

Interested companies are requested to go through the terms of contract given on page 2 and they may send their proposals **before 02 August 2015** with the detailed specifications of their equipment/machines to the following address:

*The Head of Chancery,
High Commission of India,
6th Floor, LIC Building,
Pres. John Kennedy Street,
Port Louis, Mauritius.*

Terms of Contract for tea/coffee/water vending machine

- The High Commission will provide suitable space for installation of the aforementioned machine.
- The selected company will be responsible for the transport and installation of the said machine and any charges on account of the same will not be borne by the High Commission.
- A monthly lump-sum fee will be payable by the company on account of electricity charges for the machine.
- The company will be responsible for periodic refilling/repair/maintenance of the machine etc.
- The company will be responsible for ensuring that the products in the vending machine are of good quality, within their prescribed shelf-life and conform to all the safety & quality standards of Mauritius. In this regard the company will also be responsible for periodically removing such items from the vending machines that have already crossed their expiry dates.
- The High Commission of India reserves the right to ask the company to remove the machine, at any point of time, if the need arises without ascribing any reasons for the termination of the contract.
- The period of validity of the contract will be for a year, renewable at the end of the period of contract.
- The High Commission will not be responsible for any damage to the said machine.
- The High Commission will also not be responsible for any harm to consumers that may be caused due to consumption of any products in the vending machine nor will it be responsible for any injury arising out of any malfunctions of the said machine. The contract will indemnify the High Commission against any such claims by consumers.

Terms of Contract for coin-operated Photocopy Machine

- The High Commission will provide suitable space for installation of the coin-operated Photocopy machine.
- The selected company will be responsible for the transport and installation of the said machine and any charges on account of the same will not be borne by the High Commission.
- A monthly lump-sum fee will be payable by the company on account of electricity charges for the machine.
- The company will be responsible for periodic refilling/repair/maintenance of the machine etc. It may be noted that the toners and papers for the photocopier should also be replaced by the company from time to time.
- The High Commission of India reserves the right to ask the company to remove the machine, at any point of time, if the need arises without ascribing any reasons for the termination of the contract.
- The period of validity of the contract will be for a year, renewable at the end of the period of contract.
- The High Commission will not be responsible for any damage to the said machine.
- The High Commission will also not be responsible for any injury arising out of any malfunctions of the said machine. The contract will indemnify the High Commission against any such claims by users.
